THE ESSENCE OF PEARL, and
the PEARL DENTRIFICE, prepared by JACOB
HEMET, Dentist to her Majesty and the Princess Amelia,
which for some Time past has been experienced by the No-
bility, Gentry, &c. to have the desired Effect in cleaning
the Teeth and Gums. Their Compositions are of the softest
and smoothest Kind, free from any Thing that is in the least
Degree injurious, will perfectly cure the Scum in the Gums,
preserve the Teeth in a perfect sound State, free from Rot-
tiness and Decay, will render the foulest Teeth white
and beautiful, and take off all disagreeable Smell from the
Breath, soften those Teeth which are loose, and prevent
those which are already decayed from growing worse; will
ease and greatly prevent the Tooth-Ach; nor has any so
truly valuable a Remedy ever before been offered to the Pub-
lic, for the using of which, there are proper Brushes.

Under Sanction of the King's Patent, a very useful Article
that has been long wanting, viz. A Composition in a solid
Form, for making an excellent shining LIQUID BLACK-
ING for Shoes, Boots, &c. — It is in small flat Cakes, one
of which scraped to Pieces, is sufficient to make a Pint, the
Water being poured on when boiling hot; and may be used
as a Ball with one Brush only: It preserves the Leather,
prevents it from cracking or growing hard, keeps out the
Wet, and will not in the least soil the nicest Stocking.

A large assortment of hosiery,
millenary and harberdshery; a neat assortment of
muffs and tippets, and, ermine trimmings, ribbons,
laces, gloves, and fans; the newest pearl'd earrings,
fine Welch flannel, neat Dresden and other caps for
young ladies, cambrick lawns, and muslin, mens
superfine black and white silk 4 thread knit Stalbridge
hose; the finest Durham flour of Mustard, split
peas, Scotch barley and oatmeal fresh ground,
Harry's best cards, &c. fine shaving boxes, violet
powder, wash balls, combs and pomatum, womens
and childrens cotton waistcoats, fine issue plaster,
and orange peas, corn plaster, and a few excellent
patent horse medicines.

CHARLESTOWN, South Carolina October 30.

ON Tuesday last Doctor Haly, who was
concerned in a late unfortunate affair, on the
15th of last August, voluntarily surrendered him-
self, to take his trial at the ensuing assizes, which
will begin to be holden here on Monday the 21st
instant.

On 15. Stephen Tinker, Master of the Brig
Lucretia, belonging to New-London, and bound
to Antigua, on the 9th of September, in lat. 31.
long. 63 met with a violent hurricane, that con-
tinued two days, without intermission, which obli-
ged him to cut away his masts, and was left a
perfect wreck; in this deplorable situation, on the
23d, providentially fell in with the ship St. George,
Collin McAlpine, master, bound in here, who gave
him all the assistance in his power, but the shattered
condition of the vessel, obliged him and his
crew to quit her, after taking out such things for
the benefit of the owners, as the ship could take
on board.

NEW-PORT, October 21.

Last Tuesday arrived the brig Defiance, Capt.
George Champlin from the Windward Islands,
who on the 23d of September, lat. 22, long. 71,
fell in with a large high or two decked Sloop,
with her bowsprit standing, her mast and boom
lashed along side, she had a rising in her gun-
wale, an upright stern painted with a dark blue,
and red under the counter, four cabin windows,
and a window painted amidships; she had a roller

for shipping an ensign staff, a number of white
shirts and a purple and white callico gown, hang-
ing on her quarter rails, &c. her quarter deck
entirely gone. The weather was so bad that Capt.
Champlin could not get out his boat to make any
other discovery.

NEW-LONDON, October 15.

On the 29th of August last the Brig Lucretia,
Capt. Joseph Packwood sailed from this Port bound
to Martinico, and on the 9th of Sept. in Lat. 30,
Long. 64, at 5 P. M. he met with a violent Hurri-
cane, when the Vessel was overfet, and lay on her
Beam Ends 15 Minutes, in which Time they threw
over 46 Horses and Oxen, and almost every Article
was washed off the Deck, and the Main mast car-
ried away below the Deck: At 8, P. M. she was
again overfet, when the Fore-mast was carried away
10 Feet above the Deck: At 10, P. M. they shipped
a Sea which drove in 17 of the Top-Timbers; the
next Day a Sea stove in the Dead Lights and filled
the Steerage with Water: On the 12th they spoke
with a Ship bound to the Isle of Man, commanded
by Capt. John George, who assisted them with sundry
Articles they were in Need of: The same Day they
spoke with a Spanish Man of War that had left her
Main mast, Mizzen-mast and Rudder: On the 23d
of Sept. in Lat. 27, they had another heavy Gale,
and the same Day met with Capt. M. Alpine, in
the Ship St. George, bound from Bristol to South-
Carolina, who took the Crew on board. They left
the Brig with 7 Feet Water in the Hold.

Last Week Capt. Chapman arrived here from St.
Martins: on the 21st of September he met with a
violent Hurricane, when his Vessel was overfet, and
he lost both Anchors, his Boat, and part of the Car-
go of Salt; himself knocked overboard, but provid-
entially got in again. The Day before the Gale,
in Lat. 29, Long. 66, spoke with the Brig Nancy,
Capt. James Monroe, of Providence, bound to Ja-
maica, 15 Days out, who were then all well. After
the Gale he spoke with three or four Vessels from
Virginia, who had the Gale very hard as far North-
ward as Lat. 35.

Capt. Stillman from St. Martins, had the
hurricane in lat. 30. when he run by a large
schooner which was on her beam ends; he saw
several persons on board who called to him for
help; but it was not in his power to afford them
any: The schooner had a white bottom and red
streak; tho't to be one Capt. Brown, from St.
Martins, bound to Virginia.

NEW-HAVEN, October 25.

We hear from Farmington, that a well
dressed, likely Woman, about 22 Years old, who
was travelling on Foot, with an Infant Male
Child, about two months old in her Arms, stop-
ped at a Tavern in that Town last Tuesday Even-
ing, where she procured Lodgings for herself
and Child, and about 9 o'Clock they went to
Bed — the next morning the Child was found in
bed alone, the Woman having absconded in the
Night; and tho' the most diligent Search has
since been made after her, no Intelligence can be
procured, where she came from, or where she is
gone. The Select Men of that Town, have
taken proper Care of the Child.

The 14th of next Month, is appointed to be
observed as a Day of General Thanksgiving
throughout this Colony.

About three weeks ago, a Sloop belonging to,
and bound for this Port, from the Eastward, with
a Cargo of Lumber, run ashore on Cape-Cod,
where she is lost, but the Cargo is saved.

Kent, (in Litchfield County.) October 19.

This Day, Jerusha, the Wife of John Bliss;
was tending a Grist Mill, she was supposed to
be putting the Chain on the Bolting Wheel, the
other End of which was kept on the Shaft of
the Water Wheel, by a Number of small sharp
Cogs, which it is thought caught her Clothes,
and drew her under the Shaft, where it is sup-
posed she hung on the Cogs, while the Wheel
went round several Times, and tore her Body,
Head, and Extremities to Pieces — The Jury of
Inquest bro't in, their Verdict, casual Death.

Hague, September 6.

THE last letters from Paris advise, that
upon the removal of the Prince de
Beauveau from the command in Languedoc, his
Majesty conferred it upon the Count de Peri-
gord, who immediately set out for that pro-
vince, with orders, as it is assured, to do the
same at Toulouse, as the Duke de Lorges has
done at Besancon, with respect to the Parlia-
ment of Franche Comte. The Duke de Richelieu
has received the same orders for the Parlia-
ment of Bourdeaux; and another general Of-
ficer is going to Aix upon the same business.
Monsi. Duclos has resigned the Secretaryship of
the French Academy, and is succeeded by Monsi.
d'Alembert. It is said, that the Princes Louisa
will take the veil in a few days.

Gaux, Sept. 11. We have this moment re-
ceived advice that the Chan of Tartary, and all
those of that nation who remained with him,
have put themselves under the protection of the
Empress of Russia; that the Flotilla from
Azoph is now in the Black Sea; and that the
Russians have seized a great number of ships,
which the precipitate retreat of the Turks had
not permitted them to save.

Extra of a letter from Paris, Sept. 2.

"The sudden arrival in this city from London
of Count de Guignes threw us all into a surpris-
e, imagining some very great and important matters
were upon the carpet, and what confirmed us
in this opinion the more, a council was immedi-
ately held, and before it broke up dispatches
were sent to every sea port in this kingdom, from
which it is conjectured that a war is near at
hand. We have likewise learned, that another
reason for the Count's sudden appearance here
is on account of some very important discov-
eries being made in London with regard to the
fire at Portsmouth, not at all to the honour of
the French. As soon as the council broke up,
expresses were sent to Spain and Portugal on
some extraordinary affairs, which time can only
discover, as every one about the court is quite
silent as to what has passed there, and are so very
reserved in conversation, they will not enter
upon any State or political matters. However,
this we are certain of, that unless France is as-
sisted by Spain and Portugal, and the Dutch
supply them with money, the finances are so
low, that they will not be able to carry on a
war one year, but nothing will be done till the re-
turn of the couriers from Spain and Portugal."

L O N D O N,

Aug. 20. It may be depended on (says an
evening paper) that the Court of Madrid have just
concluded a private treaty with the States General,
who are to furnish that Court with 12 men of war
of the line, on an emergency.

We are assured that there are at this present
time, and have been for these six weeks past, more
English gentlemen and ladies in Paris, than ever
was known, and that they are the source of the
little circulation of money, as well as the support
of their domestic trade in that metropolis, very
few of the nobility or gentry of their own country
being there.

A letter from Minorca received on Thursday
night, says, that there is room to suspect some de-
signs of our old enemies being now in agitation
against that island.

Aug. 21. France was never in a more distressed
condition than at present. Her repeated failures
in supporting her foreign credit have entirely lock-
ed up every public coffer in Europe from her
reach: London, Amsterdam, Genoa, Leghorn,
all have refused to advance any more sums to that
nation, until there is some prospect of a recovery
of their former loans. In this dilemma, the French
have now recourse to economy in their revenues
for such supplies as they shall want. The con-
quest of Corsica greatly drained their treasury
of the ready specie, and is daily adding to their
debts, for this reason, they have come to a reso-
lution to get it off their hands at any rate. Spain
and Sicily were applied to, but it is said were

obliged to reject the proposal for want of money. The next offer was made to the Duchy of Parma, where the bargain at present stands.

There are reports circulating about town, and 'tis feared have some foundation in truth, that the King of Sweden, at the instigation of the Court of France, is actually preparing to impede any further progress of the Russian arms against the Turks. This is done to compel the Empress to terms; and will, in all probability, involve Great-Britain in this grand quarrel at last.

Letters from Leghorn bring advice that two Russian men of war failed for the Levant the 23d ult. to join their fleet. They came from Petersburg with a great number, of transports, sixteen of which have troops on board for the reinforcement of their army in the Levant, which now will amount to 12,000 regulars, besides the Greeks who have joined them.

The Russian men of war, in the course of a year, have taken vessels, of different nations, in the Levant, having Turkish effects bound to Constantinople, to the value of three million piastres. [48.]

A clothier in Yorkshire has sent Mr. Wilkes up a present of cloth to make his liveries—the patriotic taylor of Leicester fields has offered to make them gratis; and an eminent dyer in the Borough, not to be behind hand in patriotism, (as they were white) has engaged to dye them of a true blue, (and from Mr. Wilkes regard for the American colonies) with Carolina indigo.

The refusal of entrance to English men of war into any of the ports of Spain, is intended to throw into the hands of the French and Dutch, the conveyance of specie; a blow which the commerce of this nation will feel very severely.—Spain has nothing now to add to our disgrace.

Such is the scarcity of money in all our colonies that the bills remitted from thence are now done at the rate of 15 and 20 per cent. which used to be done at 10.

Letters from Holland by yesterday's mail advise, that the publication of the French Utrecht Gazette is prohibited for six weeks, on account of some paragraphs therein published, that have given offence to the Court of France, of which the Dutch Ambassador at Paris has made complaints to the States General.

The ribbon that was the late Sir Francis Blake Delaval's, is to be given to Sir Charles Hocham, Bart. Colonel of the 15th regiment.

A certain noble defaulter has lately borrowed 50,000l. from a rich commoner, in order to make up his first payment.

We are assured there is no foundation for the reports of a treaty being on foot between the Courts of Berlin, Copenhagen, Petersburg, and London, in the manner of the Bourbon compact.

Last night a very numerous and respectable meeting of the livery of London was held at the Half Moon Tavern, in Cheapside; when it was unanimously agreed to support the present Lord Mayor at the ensuing election, on Monday the 30th instant, and to maintain their own independency in opposition to all ministerial influence.

August 22. Private letters from Holland give an account that the health of the King of Prussia daily declines, and that his memory greatly fails him, inasmuch that his Physicians have advised his Majesty to retire from business for some time, and to leave the management of government to those whom he can confide in.

By letters from Madrid we learn that the government are raising several new regiments in different parts of Spain; and that a Squadron of eight ships of the line, and four frigates, is fitting out with great expedition, to cruise in the Mediterranean, in order to secure respect to the Spanish flag, and to protect the national commerce. The same letters add, that the fleet under the command of the Captain Pacha has lately been reinforced with five thousand men, and that it is computed the present naval force is much superior to any former one belonging to the Porte.

The letters signed JUNIUS are now generally supposed to have been written by William Gerard Hamilton, Esq. He is Chancellor of the Exchequer in Ireland, and Member for Old Sarum.

August 24. It is said that General Paoli is in daily expectation of an invitation from Corfica, in order once more to head his countrymen against the French.

By letters from Gibraltar there is an account that the Mediterranean swarms with Barbary pirates, who rob and plunder every vessel they meet with. These Letters further add, that it is very unsafe for merchantmen to sail in those seas without a convoy.

Aug. 26. A Spanish fleet, consisting of eight ships of the line and four frigates, are now cruising in the Mediterranean.

An address of the half-pay officers in general, is preparing to be presented to a great personage, setting forth the hardships and oppression that the soldiers in every regiment labour under.

Three more men of war and two frigates, are

ordered to be added to Sir Peter Dennis's Squadron, which is to consist of seven sail of the line; he will then proceed to the Mediterranean the first favourable wind.

August 27. We are assured that there is such a Scarcity of Provisions in the interior Parts of Germany that it is computed in the Circle of the Lower Rhine above nine Thousand Persons have perished for want of Food.

A Shetland Horse was this Day led through the Strand, which was only thirty six Inches three Fourths high.

Aug. 28. Her Majesty is again pregnant.

The Dutch have now building on the stocks at Haarlem, Flushing and Amsterdam, above 20 ships of the line, four of which, of 74 guns, are nearly finished at the latter port.

August 31. An order has been given that none of the Soldiers now in Garrison at the Tower, shall work at their callings or business as heretofore. Some think it impolitic to restrain industry in any men in a commercial state, and the rather when it is considered that many of them have wives and children, who cannot support themselves.

Aug. 31. We hear that it is intended, by a patriotic Commoner at the opening the Parliament, to make a motion for annihilating most of the military governments in England, which will be a prodigious saving to the nation, as great salaries are annexed to most of them, and enjoyed by persons, who, so far from residing there, seldom or ever see the inside of the garrisons.

By a Letter from Petersburg, we here, that fifteen caravans belonging to Russia, were stopped and robbed, on their return from China, in the kingdom of Tibet, and that the Empress had demanded satisfaction of that court. Orders are said to be sent to Ireland for all the regiments on that establishment to be made up to their full complement of men, five private men and a Serjeant are to be added to each Company.

Letters just received from the island of Grenada import, that the greatest dissensions reign between the Governor and Council of that island, which, it was feared, would be productive of very ill consequences.

Sept. 3. It is past a doubt, that the court of Versailles have been under the absolute necessity, in the strictest sense of that phrase, to reduce 50,000 of their infantry, besides their whole Gens-d'armes, which is a corps of 3000 household troops.

Sept. 7. We hear that Mr. Moor, the mighty mechanical genius in the large way, is likely to be greatly outdone in miniature: A whimsical mechanick (it is reported for a fact) having invented a machine for cracking walnuts, forty of which will not weigh an ounce, and yet so powerful and easily managed, as without straining the teeth or hand, a child of six years old, may be capable of breaking the largest and hardest walnut instantly.

Sept. 10. The Parliament of Ireland will meet on the 8th of next Month.—The Parliament of England is not to meet till after Christmas.

A noble Lord (Lord H----d) it is said, has bought upwards of 100,000. in the three per cents, within this fortnight; and as he is soon to pay more than 200,000. to government, he will pay them in government stock, by which stroke of finess he will save at least thirteen per cent. without cheating or defrauding government.

This day a Packet was sent off from the Admiralty office, to be forwarded with all expedition for Sir George Rodney, at Jamaica.

Orders are sent to Chatham for equipping a fleet of five ships immediately, three of which are to be of the line. Their destination is yet a profound Secret.

Considerable wagers are held that Mr. Sawbridge, and not Mr. Croft, will be Lord-Mayor of London for the ensuing Year.

According to letters from Petersburg, the Ottoman Porte, in order to accelerate the treaty of peace with her Imperial Majesty, had made fresh proposals, which were judged of so advantageous a nature, that a speedy end will be put to the war.

Bristol, Sept. 14. Sunday morning last, a company of young men of this city, going down the river in a boat, on a party of pleasure, were overset off Peaset, and every soul perished. There were 13 in number, besides the boatman; and what is remarkable, one missed going by two or three minutes, and another being terrified, earnestly requested to be put on shore at Pill, which was complied with.—Several of them were apprentices, and the sons of reputable people in trade. 'Tis to be hoped their mis-hap, will influence others to a strict observance of the Sabbath.

A PICTURE of EUROPE, for 1771.

Russia.—Standing in a bold attitude, is adding another quarter to her arms. The Empress sitting triumphant on a Throne, with several wreaths of laurel fluttering round her temples, is surrounded by the Russians with their swords drawn, and 30,000 Turks in a kneeling posture.

Denmark.—The King, sitting in a court of justice, in the midst of his nobles, tearing away and destroying old records, and replacing them with new. Fame, with her trumpet, appears suspended over his head; and a dove, with an olive wreath, is perched upon his shoulder.

Sweden.—The young King, on a raised pedestal, appears embracing a nobleman, a clergyman, and a peasant at the same time, by the necks.—Emblems of the state of his government; during which time he keeps a close eye on his brother of Denmark.—The figure of justice appears in the back ground, but very obscurely.

Prussia.—This monarch, painted with a head full of eyes, is continually running about on tip-toe from one corner to another, and peeping from east to west from north to south. His eyes growing very dim, he wears spectacles.

Poland.—A tall, meagre figure, with one arm and one leg. A broken shield by her side, and an olive branch torn in a thousand pieces lying behind her. A Russian pretending to anoint her wounds, pours oil on her sores; but at intervals throws in a spoonful of vinegar.

Hungary.—This Queen appears with a little boy in her hand, whose head is uncovered: she leads him about from place to place in search of something to put on his head, which she is not likely to find.

Germany.—The Emperor in a prodigious bustle—appears in a ready humour for quarrelling—shakes his head at Russia—smiles on the electors—nods at the K. of Prussia—offers his hand to Poland, and then draws it back.—A comely figure, but much puzzled.

Holland.—While all the other nations of Europe are thinking of making money, the Dutch are making it with all the ease and expedition possible.

France.—The King appears in his cabinet. Very confused.—The Chancellor at one ear, and the comptroller at the other: The former displays all the records of the kingdom in his hand, and threatens to burn them, whilst the latter waves an empty purse. In the back ground, a lame seaman, and a soldier with a firelock cocked to his monarch's breast.

Spain.—Appears with a long toledo, keeping England at Bay. Counts over a few dollars, views eagerly 40,000 men, who appear unarmed on a large plain. Having turned her back upon France, she leans with her right arm on the genius of South-America.

Portugal.—An old man upon a couch. Makes several attempts to strike a blow, but trembles for the consequence.

Rome.—The Pope repeating homilies—nineteen Cardinals singing penitential hymns. His holiness's hat nodding on one side of his head. At a distance a Spaniard and a Frenchman dancing, after breaking their chains.

Naples.—The King stretched in an arbour, listening to the music of a full concerto—has eunuchs for attendants.

Sardinia.—His Majesty booted and spurred—always ready for a march.—Squints over to Corfica.

Great-Britain.—On her knees. The cabinet-council playing at back-gammon. A secretary of state fingering the red robe at a candle. Neptune supporting the throne with his head off.

Ireland.—Barefooted. Singing the Irish howl.

BOSTON, OCTOBER 31.

Extract of a Letter from Portsmouth, to his Friend in this Town, dated Sept. 11 1771.

"We are not very brisk in our Motions here, we are all waiting and making the best Preparations we can in Order to be in Readiness when the first Blow is struck."

NEW-YORK, November 14.

Last Saturday was married, (at Mr. Treasurer Lott's, in this City) Mr. HENRY HUMPHREYS, Merchant, to Miss GARDNER, Daughter of the late Lieutenant Colonel Gardener, of his Majesty's 11th Regiment of Dragoons, and Sister to Capt. Valentine Gardener, of his Majesty's 55th Regiment.

The General Assembly of Connecticut, in their last Session, which ended the first instant, among other business, have passed Acts for the following purposes, viz.

For emitting 12,000l. without interest, to supply the Treasury.

To prevent the last Emission of New York Money Bills from passing in that Colony, after the first of January next, under a severe penalty.

[The Reasons for this Act are said to be, that it did not appear to the Assembly that those Bills were a Legal Tender, or that they would be received at the Treasury, except in the Payments due to it; and that a great Quantity of Counterfeit Bills of that Emission, had been circulated, which the people in general could not distinguish from true Bills. But it is thought that Act will be eluded, by the Reception of those Bills, not as Money, or a Payment for Debt, but as a Security for Payment.]

An Act, laying a Duty upon all Goods, in proportion to the Quantity, purchased in any of the Neighbouring Colonies. This Duty is not very high, and is to be rated from the genuine Invoices, which the Owners of the Goods are obliged to pro-

duce, or be subject to Failure.

Also that Sir Robert Bernard, and Col. Barre, having made the tour of Spain, Italy and Portugal, and got some important intelligence, are returned to London; that it is now said the parliament will meet in November; and that the London merchants at the ensuing election of Lord Mayor, will espouse the cause of the Aldermen Piers and Nash, who by that means it is thought will carry the election. No order has been issued for removing Britain from Reading gaol, where he still remains, persists in his former declaration, and denies any knowledge of Dudley.

FOUR POUNDS REWARD.

RUN away, October 27, 1771,

from the subscribers' a servant-man and an apprentice-lad; the servant-man named Thomas Jones, a native of England, about 30 years of age, 5 feet 3 inches high, sandy complexion, red face; had on when he went away, a new hat, blew sailors jacket, striped trowsers, check'd shirt, and strong shoes; one of his legs being shorter than the other causes him to halt in his walk. The lad is a stuff-shoe-maker by trade, named Richard Sweetman, about 16 years of age, tall of stature, pock-marked, and of a four countenance; had on and took with him when he went away, a blue waistcoat, a cotton-velvet ditto, green knap ditto, buckskin breeches, thread stockings, a white shirt, good shoes, with carved silver-buckles, and sundry cordwainers tools.

Whoever takes up the said servant and apprentice, and secures them in any of his Majesty's goals, so that their masters may have them again, shall have the above reward, or Forty Shillings for each, and all reasonable charges paid by

ELIJAH WEEB and SAMUEL SIMPSON, in Philadelphia.

New-York, Nov. 13, 1771.

WHEREAS one Joseph Lowe, this morning went from his lodgings, in the house of the subscriber, at the Slip-Market, and has robbed him of about Nine Pounds in cash, and the following goods, viz.

One pair of blue, and one pair of sky-blue breeches, one blue velvet and one green flag jacket, one thickest coat, one pair of pumps, the straps lined with red leather; one pair of square silver buckles, marked M S, one silver watch, made in Gofport, with a leather string, to which hung a silver seal, a silver bevil, square and compass.

The said Lowe is an Englishman, about 17 or 18 years of age, and 5 feet 6 inches high, wore his own black hair a little curled, floops a little in his walk, speaks very broad, has an impediment in his speech, and a winking with his eyes when he talks fast; He is by trade a Nail-maker, and probably wears some of the clothes above-mentioned. Whoever takes up the said thief, so that he may be brought to justice, shall have Three Pounds York-money Reward, and all reasonable charges paid by

JOHN SEGER.

PROPOSALS

FOR ESTABLISHING

A Land-Office in the City of Albany.

WHEREAS many gentlemen residing at New-York, and elsewhere, are possessors of considerable tracts of land in the county of Albany, which probably they may be inclined to sell or let; and whereas persons intending to purchase or become tenants, are frequently at a loss to discover the proprietors of such tracts which they would choose to settle upon; and often after having obtained all necessary information, they find it very inconvenient and expensive to make a personal application: The subscribers therefore propose to open a LAND-OFFICE in the city of Albany, on the following plan, which if properly encouraged, will be of general utility to the public, and produce an emolument to the undertakers adequate to their alacrity.

CONDITIONS.

I. That every proprietor of lands in the county of Albany, who may have occasion to employ them, will be pleased to furnish a map of the lands, and instructions containing the conditions of sale, or terms on which they will lease.

II. In case of sales, they will negotiate the whole at the rate of one per cent. provided they have the drawing of the deeds, or two per cent. if the deeds are drawn by others: Their charge for drawing a lease, will be One Pound, and as much for a mortgage; to be paid as the parties shall agree.

III. They will have all mortgages recorded, charging the mortgage with the clerk's fee only.

IV. In letting lands they expect no other reward than the profits arising from drawing the leases; which they will execute at One Pound for the lease, and as much for the counterpart.

V. Lands sold or let, thro' their agency, and which require to be surveyed by them, they will engage to perform in the most exact manner, and with all possible dispatch; the expence to be paid either by the grantor or grantee, as shall be agreed upon: And in order to prevent any disputes that may arise concerning the expence, they expect to be allowed for the surveyor, two chain bearers, a marker and flag carrier, Two Pounds per day, they finding themselves in every thing.

VI. That any person intending to purchase, or rent lands, may have the privilege to examine their books and maps, paying Two Shillings for every hour's examination.

VII. Original plans will be returned as soon as copies can be taken of them, and the subscribers will do every thing in their power to prevent wastes on the lands of which they have the selling or letting.

They hope they may be allowed to declare, that they are competent to the business; that they understand the art of surveying both in theory and practice; that they are capable of mathematically demonstrating whether a survey has been truly made or not, and to discover the contents by the pen, only. They assure every gentleman who shall be pleased to employ them, that they are determined to act with the strictest impartiality and integrity, and by their assiduous application to the general business of the office, endeavour to render this institution important and beneficial to the public.

JEREMIAH VAN RENSSELAER, JAMES VAN RENSSELAER.

Newport, October 9, 1771.

BY Order of the Honourable

Metcalfe Bowler, Esq; one of the Assistant Justices of the Superior Court of Judicature, in and throughout the Colony of Rhode-Island, &c. to me directed, the Creditors of Nathaniel Hart and Isaac Hart of Newport, in the County of Newport, Merchants, in Company, are hereby advertised, that the said Nathaniel Hart and Isaac Hart have preferred their Petition to the said Justice, praying the Benefit of the Law for the Relief of Insolvent Debtors, and leave to surrender all their Estate, both real and personal, for the Use of their Creditors, and have thereto annexed an Inventory of their Estate, together with a List of their Debts, and to whom due, and have, as Merchants in Company, and each in his private Character, taken the Oath by Law prescribed, all which is filed of Record: And the said Creditors are hereby notified to appear, by themselves or Attorneys, before the Justices of said Court at Newport, on the 7th Day of January next, there to ascertain their Demands, and nominate and appoint Commissioners or Assignees, or shew Cause, if any they have, why the Prayer of the said Petition should not be granted.

JOHN GRELEA, jun. Clerk.

THREE POUNDS REWARD.

RUN-AWAY from the Subscriber the 27th August last, a Molatto Fellow named HUMPHREY, about 30 Years of Age, a well set Fellow, about 5 Feet 12 Inches high: Had on when he went away a Beauskin Coat with white Metal Buttons, brown Kersey Vest, Beauskin Breeches, Tow Shirt, Worsted Stockings, old Shoes, Brass Buckles. Whoever secures said Fellow, so that his Master may have him again, shall have the above Reward, and reasonable Charges paid by me

POET'S CORNER.

To the PRINTER. (A Night Scene.)
 NOW shooting o'er the Flood his fervid Blaze
 The red-brow'd Sun withdraws his beamy Rays.
 Calm Twilight now his drowsy Mantle spreads,
 And Shade on Shade, the Gloom still deep'ning, sheds;
 The Moon, full-orb'd, forsakes her watery Cave,
 And lifts her lovely Head above the Wave;
 The snowy Splendors of her modest Ray
 Stream o'er the glitt'ring Waves, and quiv'ring play:
 Around her, glitt'ring on the Heav'n's arch'd Brow,
 Unnumber'd Stars, enclos'd in Azure, glow,
 Thick as the Dew-Drops of the rosy Dawn,
 Or May Flowers crowding o'er the daisy'd Lawn;
 The Canvas whitens in the Sil'ry Beam,
 And with a mild, pale Red the Pendants gleam.
 The Mast's tall Shadows tremble o'er the Deep;
 The peaceful Winds an holy Silence keep;
 The Watchman's Carol, echoed from the Prows,
 Alone, at Times awakes the still Repose.
 Aurora now, with dewy Lustre bright,
 Appears, ascending on the Rear of Night,
 With gentle Hand, as seeming oft to pause,
 The Purple Curtains of the Morn she draws;
 The Sun comes forth—

PROPOSALS

FOR PRINTING by SUBSCRIPTION, A WEEKLY NEWS-PAPER, entitled, THE PENNSYLVANIA PACKET, AND GENERAL ADVERTISER.

INSTRUCTION or AMUSEMENT are the points aimed at by writers of every denomination, in whatever sphere they move, or whatever rank they hold in the literally world. Under one or other of these classes, the productions of every author may be arranged. But as the generality are not at leisure to make themselves masters of any one branch of learning, which can properly be filled a science, much left to comprehend the whole body of literature, with all its various revolutions and improvements; the grand object is, to reduce these matters into a small compass, and to exhibit them to the attention of the Public in as close a view as possible. He that succeeds in performing this task, certainly discharges an agreeable, if not a very useful, office. It is for this reason, perhaps, that the modern News-papers, published upon the present improved plan, meet with more universal perusal than the voluminous works of the laborious learned, though of infinitely superior merit, and unspeakably higher importance.

With a view of contributing, in one and the same effort, to both these desirable ends of KNOWLEDGE and PLEASURE, the Subscriber requests the indulgent attention of the Public in general, and his Friends in particular, while he offers to their candid consideration the following

- CONDITIONS.**
- I. THE PENNSYLVANIA PACKET, and GENERAL ADVERTISER, shall be printed with elegant Types, properly adapted to the various articles of which it may consist; and on Paper, equal in quality and size to any News-paper published in this city.
 - II. The freest accounts shall be faithfully given of all occurrences, foreign and domestic: these shall be arranged in such order as to furnish a clear and comprehensive view of the present interests, designs, intrigues, and politics of every respectable State and Potentate in the world.
 - III. All Letters, Essays, and Miscellaneous Pieces, sent to the Publisher, that may any way tend to discoveries in Science, improvement in the Arts, promoting Manufactures, or encouragement of Agriculture, shall be thankfully received and immediately inserted.
 - IV. Advertisements, of a moderate length, will be inserted at Three Shillings each for one week, and One Shilling for each continuance; those of greater length at such proportionable prices as may be reasonable.
 - V. This Paper shall be published every Monday morning early, and delivered to the subscribers in town at their respective dwellings. The first number shall be given gratis, and printed on Monday the 25th of November next, or sooner, if sufficient encouragement should offer.
 - VI. The Price to Subscribers will be Ten Shillings per year.

JOHN DUNLAP.

R O M E, August 10.

WE are assured that the last courier extraordinary, which arrived here from France brought to the Pope the entire conclusion of a treaty, that will soon be made public, whereby the territories Benevento, Avignon, &c. are restored to the holy see.

Paris, Aug. 23. Among the military arrangements, the militia of this kingdom is transformed into provincial regiments. The 104 battalions will form 47 regiments, which are to be called by the names of 47 principal towns. It is assured, that the Parliaments of Toulouse and Bourdeaux will meet with the same fate as that of Douay. Though the Duke de Praslin has been here some days in consequence of leave being given him, to reside here on account of his health, he is only permitted to see his own family, all other company being expressly forbid.

Paris, Aug. 30. Mr. Tunesick, by origin an Englishman, has just exhibited at Versailles, a very singular experiment. He opened the head of a sheep and horse from side to side, by driving a large iron wedge into the skull, by means of a mallet, drew the wedge out afterwards with pincers, and recalled the animal to life, by injecting through the exterior aperture, with a tin syringe, a spirituous liquor of his own composition, to which he attributed surprising effects. The taste of this liquor resembles that of Commanders Balm. Hague Gazette.

Hague, Sept. 1. Copy of a letter from Petersburg, dated August 9, to Prince Gallitzin, envoy extraordinary from the Empress of Russia, to the States General.

"We have received advice, that the Chan of Crimea, Selim Guercy, whom the Porte lately raised to that dignity, has sent deputies to Petersburg, and puts himself under the protection of this Empire, upon the same conditions as were granted to all the Tartar nations in Crimea.

"This point being agreed upon, the above-mentioned nation made the same request to the commander in chief of our army, and offered to be guarantee for the faithful submission of the Chan, who has already sent two of his sons to the court of her imperial Majesty, with the form of the oath. As it is our principal aim to put the tranquillity of this nation, once for all, upon a solid foundation, it seems pretty equal on whom the dignity of Chan is conferred.

"The fortresses of Taman, situate upon the Island of that name, at the Mouth of the sea of Zabache, and three other Towns on that side are occupied by our troops, so that we are now Masters of that sea.

"Major Gen. Browne, who commanded a separate body of troops in Crimea, was carried off lately by the jaundice, much regretted."

We are now offered from various places that the Abbe Terrai, Comptroller General of the Finances of France, retired the 23d of August to his estate near Nogent, where he expects a Lettre de Cachet to inform him where he is to be banished to.

Leghorn, Aug. 14. Letters received here from the Levant import, that General Count Alexiowicz Orlov, two days after his arrival at Paros, gave orders that all the Russian land and sea forces in the Archipelago should be got together, in order to execute some important enterprise; that the Russian fleet had already put to flight the Turkish Squadron in the Black Sea; that the former approaches nearer and nearer to the Capital of Constantinople; and that the Squadron of Vice Admiral Arif, which forms the van guard of the Russian fleet, has taken the island of Tasso, three miles from the coasts of Romania.

Leghorn, Aug. 18. We had accounts yesterday from the Levant, mentioning, that the united Russian fleet had not steered its course to the Dardanelles, but to Salonica or Tefsalonica to take it, and by that means to be near General Romanow's army, and facilitate their projected operations. The General, with the greatest part of the army, intends attempting to force his Passage into Bulgaria at Nicopolis, and to proceed in his Operations, against Macedonia and Romania, supported by the fleet under Count Orlov, toward the effecting of which, the help of all the Greeks in Macedonia will be of great service. What will be the proceedings of the Austrian troops, who are assembled in great numbers on the frontiers of Bosnia and Servia, in case this should all take place, will then be seen.

L O N D O N,

August 21. There is a striking similitude between the present situation of the people of England and the people of France. In both, the people are alike oppressed; in both, the finances of the public are in a wretched condition; in both the reins of government are guided by a woman; in both, their parliaments have been essentially suppressed, the one by force, the other by fraud: In both, their Princes do not rely on the affections of their subjects, but on large standing armies; in both, the King's will and pleasure is the only law; in both, the just and constitutional rights and liberties of the people have been infringed and trampled upon; in both, there have been frequent Remonstrances to their Kings, which have been totally disregarded; and in both, there is such a general ferment and discontent, that may probably bring on a confusion, and end in a change of their present forms of government.

August 31. On Wednesday night the Right Hon. the Earl of Harcourt, his Majesty's Ambassador at the Court of France, arrived in town from Paris. His Lordship was yesterday at the Court at St. James's, and afterwards had a conference with the King.

Extract of a letter from Leghorn, August 13.

"We have received here by letters from Aleppo, dated June 17, a confirmation that Ali Bey, the new Sultan of Egypt, after having defeated, in the environs of Damas, five Turkish Pachas and their troops, made himself master of that city. The last advices from Constantinople, import that the news of the above defeat had occasioned a general consternation; and that the Porte is very desirous of making peace with the Russians, in order to attack the Usurper the more effectually."

Extract of a letter from Venice, August 15.

"According to advices from Macedonia, the Russians block up the passage of the Dardanelles in such a manner, that no ship can pass or repass without being visited; so that the four galliots which the Captain Pacha had sent to the Archipelago, to raise part of the tributes, are given over for lost."

Extract of a letter from Acre, in Syria, June 6.

"A courier arrived here this morning from Ali Bey's army, to bring the Chiek Daher advice of the defeat of the Turkish army, which defended Damascus, consisting by some accounts of 11,000 men, and by others of 24,000. The three Pachas who commanded them fell out in the morning of the 4th inst. Ali Bey's troops immediately attacked them sabre in hand, and routed the whole army after a feeble resistance. The Pacha of Tripoli was thrown from his horse by a mortal wound he received in his thigh. This account was sent by Ali Daher to the Chiek Daher his father from the field of battle. He adds, that the victorious army is preparing to enter Damascus: This town lies open, and its castle, which was built by the Califfs, is not able to hold out long."

SEPTEMBER 7.

It is said that Dudley has declared that there were but two Englishmen concerned in the late fire at Portsmouth, and that all the rest were Frenchmen.

A correspondent remarks that the M—y seem very unwilling to push forward an examination into the cause of the late Portsmouth fire, which gives occasion to suspect that some of the great ones are concerned.

Messrs. Wilkes and Bull will be sworn in Sheriffs on Saturday the 28th instant, and the election for Lord Mayor will be on the ensuing Monday at Guildhall.

Mr. Godsell, Farrier at Puddle-dock, has a very ancient horse, which belonged to a Soldier at the latter end of Queen's Anne's wars in Flanders, Geo. Phyn Esq; is appointed Capt. of a company in the 21st Reg. of foot.

Extract of a Letter from Constantinople, July 13.

"We are assured that only a part of the army, under the command of the Pachas of Damascus and Aleppo, hath been defeated by that of Ali-Bey, and that the remaining part being reinforced by a Prince of the Druses, who inhabit the Mountains of Libanon, has gained a complete victory over the Usurper, and besides taking a considerable booty, the city of Damascus hath surrendered to the conquerors."

A correspondent observes, that the late fire at Portsmouth was a more infernal Scheme than the Popish Plot, and worse in its consequences; the greatest loss that could have ensued in the latter, would have been only blowing up both houses of Parliament, which could soon have been repaired (at least if they were not better then the present) without much loss; but the destruction of the British Navy might have been fatal to the whole nation.

The business on which general Coote is to embark for India, is said to be of a most important nature to the interests of this country; and, in fact, rather an enquiry into the conduct of a certain great C—y than a concurrence with their measures, or an espousal of their cause.

All the seaports of Spain are open to the Dutch vessels, whose trade with that kingdom is at this time more flourishing than it has been for several years past.

Sept. 10. There are no less than twenty-five causes now depending in Doctors Commons, for adultery and criminal conversation, in order to obtain divorces, and most of them between the great people at the west end of the town. There have not been so many causes of that kind brought into the Ecclesiastical Court for fifty years before.

Last week a Custom-House Officer made a seizure of ten bales of books printed in Dublin, which were taken to the Custom-House, there to be burnt, that the good people of England may not be imposed on by those pirated editions.

Extract of a letter from Stockholm, Aug. 20.

"The secret Committee have explained their sentiments on the subjects of the dictamen in a manner very satisfactory to the King: They have declared that it never was their intention to reflect upon the memory of the late King, or offend his Majesty upon the Throne; that what had been done wrong in the expedition of the States, proceeded merely from a misunderstanding, and that they left it to his Majesty to draw up in such terms as he should judge proper the diploma for the re-admission of the Senators who had been deposed."

"The Counsellors of State having examined the explication of the secret Committee, it was unanimously approved by the four orders. Then it was signified to them, that the King has fixed upon the twenty-fourth of next month for his coronation."

"The King has ratified and signed the diploma for the re-admission of the Senators Count de Horn and Baron de Lagerbielke."

Sept. 14. On the 17th ult. a Danish frigate of war took and carried into Mahone harbour a French schooner, freighted by an Algerine; on board of which they took 20,000 dollars, she has also a very rich lading of silks, &c.

There has lately been dug up from one of the mines in Norway, a piece of silver ore, which weighed 510 pounds, being 4 feet 11 inches long and 5 feet in circumference; it is valued at 4500 crowns.

Extract of a letter from Edinburgh, Sept. 4.

"Yesterday General Paoli and Count Bunzinoki, the Polish Ambassador, arrived here, who came principally to pay a visit to James Boswell, Esq; a gentleman who is admired for his magnanimity of spirit, affability of temper, and firmness in friendship. He received the General, his particular friend, with the greatest affection and esteem."

Reading Sept. 5. Britain now in our Gaol, was committed for uttering five forged letters of advice, that Drafts would be tendered the next day, which accordingly was done by him, tho' not accepted. Alderman Peers's hand was forged, and another city tradesman's, for small drafts. Britain offers, on condition of a free pardon, to disclose the whole of that material transaction at Portsmouth; likewise of his inflicting men in England, &c. for the French service, who employed him, and who supported him with cash for both those wicked purposes. Neither does he hesitate to declare, they will not publicly regard his information, for fear of their own safety.

A national sponge is so greatly dreaded in France, that people who have any property in the funds of that Kingdom are hourly selling out, though at an amazing loss; and the farmers-general who deal largely on speculation, are incessantly solicited to become purchasers.

It is not yet settled whether the present Lord Lieutenant of Ireland will continue in office this Winter, or not; if there should be any remove, Lord Suffolk is said to be fixed on at his Lordship's particular request.

G L A S G O W, September 10.

Extract of a letter from London, September 10.

"Advices from Warsaw by this day's mail, inform that the Russians are in actual possession of all the fortresses and ports belonging to the Crimea, and of the island of Taman. The Sultan Selim Guery hath likewise submitted to the empire of Russia, and hath sent two of his sons with 48 deputies from Tartary to Petersburg to take the oaths, and to do homage to her Imperial Majesty. This intelligence is so authentic, that even the Confederates do not doubt it."

B O S T O N, October 28.

By a person lately arrived from Jamaica, we learn, that his Majesty's ships of war on that station had ALL sailed to the Spanish Main, the design is a profound secret, and causes much speculation there.

Since our last, arrived here the following ships of war, viz. the Tartar of 28 guns, Captain Meadows, from South-Carolina, where she landed Governor Montague from England, at which place Mr. Gibbs, the purser, died—The Gibraltar of 24 guns, from Halifax, Sir Thomas Rich, commander, in whom came passenger Lord William Campbell, Governor of the province of Nova-Scotia.—The Swan of 20 guns, Captain Ascough, from Halifax.—And the Beaver of 18 guns, Captain Linsey, from New-London.

A Paragraph in the Massachusetts Spy, of last Thursday, say, "That Capt. Preston, who was lately justified in killing some Rioters on the 5th of March 1770, has had a still further Compensation from his Sovereign for his services, having conferred on him 500l. sterl. to recruit him in what he expended, and also a Pension of 200l. per Annum."

P H I L A D E L P H I A, October 31.

Sunday last arrived here the schooner Sulanna, Captain Palmer, from Cape Nichola, with whom came Captain Langden, late of the schooner Johannab, who was cast away on the West of the Caucasus the 4th of September last, on his passage from South-Carolina for Jamaica, from whence he got to Turks-Island with the people and part of the cargo: while there, on the 17th of September, they had a hard gale of wind, when a sloop commanded by Captain Groves, belonging to New-London, was drove ashore and lost; Captain Dorrel's sloop belonging there, was drove ashore and lost her mast; a schooner, Captain Buffington, parted both her cables and drove to sea; two sloops belonging to New-England rode it out.

Captain Palmer informs, that a lumber loaded sloop was towed, by a French vessel, into Cape Francois the 28th of September, with had lost her mast, bowsprit, and all the lumber off her deck, and her side stove in.

Last Week Capt. Chapman arrived here from St. Martins: on the 21st September he met with a violent Hurricane, when his Vessel was over-set, and he lost both Anchors, his Boat, and part of the Cargo of Salt; himself knocked overboard, but providentially got in again. The Day before the Gale, in Lat. 29. Long. 66, he spoke with the Brig Nancy, Capt. James Monro, of Providence, bound to Jamaica, 16 Days out, who were then all well. After the Gale he spoke with three or four Vessels from Virginia, who had the Gale very hard as far Northward as Lat. 45.

Another Cheap Shop and Store, commenc'd for the
benefit of the publick, by

PETER T. CURTENIUS,

At the sign of the Golden Anvil and Hammer, in
the Broad-Way, near the ruins of Oswego-
Market;

WHO has imported from the fountain head, in
the last vessels from England, A large and
general assortment of winter and summer goods,
both for men and women's ware, all which he will
sell (except rugs, blankets, duffels, hats, and a few
other low priced bulky articles) for a bare cent. by
the piece; and he will sell by retail, for the cash on
the nail, at as small a profit as the cheapest of the
cheapest shops; which he is enabled to do, as he
imports the principal part of his goods from the
makers.—Also, He has imported a general assort-
ment of ironmongery, &c. &c. which he will sell
vastly cheap by wholesale or retail.—Likewise, Pot
ASH KETTLES; all sorts of hollow waer, iron
backs, &c. &c. &c. made at the New York Air
Furnace, sold at the same place as usual. 3 6

TWO new Dwelling Houses now building, at
the Corner of Hunter's Quay, Wall-Street,
to be let and enter'd the First of May next. In-
quire of Doctor WM. BROWNE JOHN. 3 6

To the PUBLIC.

WHEREAS the Trustees of Queen's College, in
New Jersey, at their Meeting in May last, (the
Honorable Frederick Smith, Esq; presiding) did fix said
College at the City of New-Brunswick, and at their last
Meeting, held according to appointment of the former, on
the fifth of this Instant, at the Place aforesaid, (his Ex-
cellency William Franklin, Esq; presiding) it was unani-
mously agreed; that in order to carry this Institution into
immediate Execution, an able well qualified Person be
elected and appointed Tutor, to instruct the Students
who shall offer themselves, in the learned Languages, liberal
Arts and Sciences, in order to prepare them for the usual
Degrees; and for that Purpose elected, constituted, and
appointed, Mr. Frederick Frelinghousen, who is also to teach
the English Language grammatically. The Trustees have
likewise ordered that the Revd. Messieurs John Light,
Jacob R. Hardenbergh, and Johannis M. Van Harlingen
together with the Tutor aforesaid, do take upon them
the Government and Direction of said Institution, until
a well qualified President can be procured. The Publick
is therefore notified, that the said College will be opened
on the second Tuesday of November next, at the Place
appointed, where proper Attendance will be given. It is
supposed that the Character of the Gentleman appointed
Tutor is become so well known, by discovering his sin-
gular Genius in the Course of his Studies at Nassau Hall,
(where he had a liberal Education) that it needs no farther
Recommendation from us.—The Public may depend upon
finding good and sufficient Board at private Houses at
said Place, and as cheap (if not cheaper) than at any other
Places where Colleges are erected.—As said College is
calculated to promote Learning in general for the good of
the Community, therefore the Gentlemen Students may
expect to be treated with becoming Candour, without
any Discrimination with Respect to their Religious Sen-
timents; and will also have Opportunity to attend the
divine Worship of different Denominations in said City.—
The Students offering themselves to enter said College,
shall be admitted into such of the Classes as they shall be
qualified for.

By Order of the Trustees.

JACOB R. HARDENBERGH, Clerk.
New-Brunswick, the 30th Oct: 1772. 3 6

To the Public.

THE SUBSCRIBER purposes, if

encouraged, to teach the English Language gram-
matically. And, for the Satisfaction of those who may be dis-
posed to encourage such a necessary Mode of Education, as
that of instructing Youth, in the grammatical Knowledge of
their native Tongue, confessedly is; he gives the following
Sketch of the Plan which he has adopted.—When the Pupil
can read fluently and write a legible Hand, he will be taught
the English Accidence, or the Properties of the Parts of
Speech, as divided and explained by the latest and most emi-
nent English Grammarians; that is, DOCTOR LOWTH,
DOCTOR PRIESTLEY, and others. After which, he will
be taught how to parse disjunctively; then modally, and
instructed in the Rules of English Syntax; and, when he is
sufficiently skilled in them, to account for the Construction
of Sentences in general, he will receive Lessons of false Spell-
ing and irregular Concord, &c. taken from some classic Au-
thor, but rendered ungrammatical for the Purpose of trying
his Judgment. When he has reduced these as near their Ori-
ginals, as his Knowledge of Grammar will permit; he will
be shewn all such Irregularities as may have escaped his No-
tice, either in the orthographical, or syntactical Part. These
Lessons will also be selected from different Authors on vari-
ous Subjects; and frequently, from the Works of those who
are the most celebrated for the Elegance of their epistolary
Writings; as this Kind of Composition, is acknowledged to
be as difficult as any, and of greater Utility. The erro-
neous Part, in every Lesson, will likewise be modified. At
one Time, it will consist of false Spelling alone.—At another,
of only false Concord.—The next, perhaps, will consist of
both.—The 4th may not be composed of either of them;
but may contain some Inaccuracies, or Vulgarisms, &c.—
The 5th may retain all the foregoing Improperities, and the
last, none of them, of which the Pupil needs not be apprised,
for Reasons that are too evident to require a Recital. To
the preceding Exercises, will succeed others on the Nature
and Use of Transposition.—The Ellipses of all the Parts of
Speech, as used by the best Writers, together with the Use
of synonymous Terms.—A general Knowledge of all which,
joined to Practice, will enable Youth to avoid the many
orthographical Errors, Barbarisms, inelegant Repetitions,
and manifest Solecisms, which they are, otherwise, liable to
run into, and, in Time, render them masters of an easy,
elegant Style, by which Means they will become capable of
conveying their Sentiments with Clearness and Precision, in
a concise and agreeable Manner; as well with Reputation to
themselves, as Delight to their Friends.—Lastly, tho' the
Pointing of a Discourse requires ripe Judgment, and a more
intimate Acquaintance with the syntactical Order of Words and
Sentences, than the Generality of Youth can be possessed of,
to which may be added, the unsettled State that Punctuation
itself is really in; so that very few precise Rules can be given,
without numerous Exceptions, which would rather embarrass
than assist the Learner: Yet, some general Directions may
be given, in such a Manner, as greatly to facilitate so desir-
able an Acquisition; and they will be attended to, on the
Part of the Tutor, in Proportion to the Susception of the
Pupil. But he doth not mean to insinuate, that the most
tractable, of mere Youth, can be perfected in all the Varieties
of the Language in a few Quarters, as Perfection is not to
be acquired by Instruction alone, any more than it is by Prac-
tice without Instruction. On the contrary, he knows, that
it is a Work which requires considerable Time and close Ap-
plication, on the Part of the Pupil; as well as great Care
and much Labour, on the Part of the Teacher; and that
all hasty Performances in Grammar, have a greater Tendency
to raise a slender Superstructure, than lay a permanent Foun-
dation. Much more might be said on the Advantages result-
ing from this Mode of Education, were they not so very
plain, that they scarcely require mentioning, and that this is
only a Sketch. However, it may not be amiss to observe,
that the Pupils, by continually searching of their Dictiona-
ries, in Quest of Primitives and their Derivations, as well
as the constituent Parts of compound Terms; besides learn-
ing the Dependence that their native Language has on itself;
will also treasure up in their Memories a vast Stock of Words,
from the purest Writers; And, what is of infinitely more
Value, their just Definitions; as every One of this Class
will have Johnson's Dictionary in Octavo. Therefore, if it be
true, that 'He who knows most Words, will have most Ideas',
and that on the 'Right Apprehension of Words, depends
the Rectitude of our Sentiments',—May it not be presumed,
that such a Plan, in its full Extent, bids fair for improving
the Minds of Youth in necessary Knowledge, and conse-
quently, is likely to produce intelligent Men, and useful Ci-
tizens.—The Consideration of which, is, with all due De-
ference, most humbly submitted to the respectable Public; by
its greatly obliged and very humble Servant,

H. Hughes.

P. S. He intends, as soon as Opportunity will permit,
to publish a Series of Ratios; calculated for converting, by
Multiplication alone, any Sum of New-York Currency, or the
Currency of any other Colony, into Sterling; but may be
equally useful for finding the Value of a lower Currency in a
higher; when the Difference between them increases, or de-
creases, as it does between Sterling and Currency.
N. B. His Evening School began about the Middle of last
Month.

A CAUTION to the PUBLIC.

ABOUT the 3d inst. a small young man, who
call'd his Name Ward, (in Company with two
others, who went by the Names of Thompson and
Johnson) came to my Store in Fairfield and passed
a Five Pound Bill, which proved to be a Counter-
feit of the last Emission of New-York Money Bills;
and it is thought these Men had with them Coun-
terfeit Money of all Sorts, of New-Jersey, and
New-York Bills, and Dollars. Ward is about 6
Feet 5 Inches high, had on a short brown lapelled
Coat, a red double breasted Waistcoat, and black
Breeches. Thompson, about 5 Feet 10 Inches high,
thin Visage, black Complexion and Hair; had on
a dark brown broad Cloth Coat, and a striped
Waistcoat. Johnson, about 5 Feet 11 Inches high,
fair Complexion, light Hair, and had on a light
blue Coat. Whoever detects and brings these Fel-
lows to Justice, will do a Benefit to the Public.

Machine to dress FLOUR.

THE King has been pleased to grant unto JOHN
MILNE, of Manchester, his royal letters patent,
for all his colonies in America, &c. for the sole making and
vending his new invented machines, for the dressing the
flour of wheat, &c. which machines, are found to be of
great utility by all persons who have them in use; they
not only make the flour look better, but also make it use
better, as they make it more lively, and will dispatch three
times as much business, in the same time, as the common
method of bolting with cloths, and they will do that business
at one operation, which, to be done with cloths, requires
several, for they will dress fine flour two seconds and three
seconds, and clean the bran at one operation; or they may
make two sorts, or only one sort of flour, by moving the
partitions within the box just as the person pleases who attends
it; and considering their duration are much cheaper than
cloths. Also, his new invented machines for cleaning wheat,
barley, &c. which takes out seeds, dust, &c. and will break
and destroy smut-balls, and will give a brightness and lustre
to the grain.

The said machines are to be sold by JOHN MILNE, and
Co. at their house in Manchester; or by applying to
James Milne (son of the said John Milne) who is now at
Capt. Robert Sinclair's, in Maiden Lane, New-York.

To the PUBLIC.

HAVING had an experience of Mr. Milne's new in-
vented patent machines, for bolting flour and cleaning
wheat at my mill where they are now to be seen at work, at
Long-Island, I think it my duty to declare, that they are a
curious, expeditious, and elegant contrivance, and what, in my
opinion, will answer every purpose for which they are desig-
ned, and likewise be of great service to the public.
